

“Little

Miracles”

Wilson Medical Center recognizes that the birth of your child is one of the most important and special experiences in your life. The birth of a child is a time of joy and celebration - for you and for us. WilMed Healthcare Foundation now offers a unique way for family and friends to commemorate this blessed occasion. “**Little Miracles**” is a special tribute to infants born at Wilson Medical Center.

A gift of love that will last a lifetime, “**Little Miracles**” is Wilson Medical Center’s name for our permanent “wall of babies.”

Your contribution of \$50 to the Foundation creates a beautiful

circle medallion etched with the actual footprint, name and birthdate of your special baby. Blue etchings are for boys, pink for girls. The medallion is proudly displayed on our “**Little Miracles**” board, located in the lobby of our Birthing Center.

Any child born at Wilson Medical Center - whether 10 days or 10 years ago - may be honored or memorialized. All you need to do is provide the Foundation with a copy of the birth certificate, including footprint, with the enrollment form and contribution.

To enroll your special delivery, please complete the form on the back and return it to WilMed Healthcare Foundation.
